

All run down, easily tired, nervous? And do not know what to take? Then go direct to your doctor. Ask his opinion of Ayer's Sarsaparilla. It contains no alcohol, no stimulation, and is a blood purifier, a nerve tonic, a strong alterative, an aid to digestion. Ask your doctor about Ayer's non-alcoholic Sarsaparilla as a strong tonic for the weak.

## PRINCIPAL ASKS FOR GOOD STRAP

(Continued from Page One.) Principal Cox happened to be away at one of the other schools. The principal asked her why she did not report it to him, and she said the language was such she was ashamed to do so.

Impudent Language. Inspector Gibson remarked that there was a good deal of difference between

being requested to state if there was much of the kind of language which was referred to as impudent, Principal

In the volume of it it is out of the ordinary. It is not general through-out the school. While not entirely confined to one room it is chiefly used in the room of the older pupils. I have thrashed several of the boys; the in-spector saw me thrash one."

The principal added that one of the thrashings had been administered because of a "case of nastiness."

"For that sort of offense a whipping

is about the best thing the boy can get," said Inspector Gibson. He de-elared that it was impossible to aced the culprit away from the school and therefore the corporal punishment had to be administered.

Matter Well in Hand.

"So far as I know the principal has the whole matter well in hand," stated Inspector Gibson.

""We are not entirely through with the matter, but I think we have gone about far enough to measure the scope of it," explained Principal Cox. The replies made by Inspector Gibson to a series of questions put by a reporter

the necessity of moving some of the children into it in order to fill it up. This occasioned changes all along the line and the shifting disarranged the work of some of the teachers, which was unpleasant, but necessary.

No Specific Charges.

"It is difficult to prove anything when no specific charges are made. The complaints in this case are of a general nature and are, therefore, almost impossible to investigate. specific charges to be made there would be something to work on.

\*'It is true that there have been eases of the use of vulgar and profane language on the school premises and also of vulgar conduct, but Mr.

fane language on the school premises and also of vulgar conduct, but Mr. Cox has investigated them and in some cases meted out corporal punishment.'

"Every now and again a kind of dry rot sets in in a school, and it is liable to set in in any school in the Territory, and an epidemic of this sort appears to be what the Kalihi waspa School has been suffering from. If it is allowed to go on unchecked it is bound to have a bad effect on the morals of the school. In this case, however, Principal Cox appears to have the situation well in hand, Mr. Law's class is the one in which most of the House, Dr. E. H. Hume, Mrs. Law alass is the one in which most of the trouble has occurred."

That when Territorial Treasurer Conkling reaches New York he will find conditions in the money market favorable for the flotation of Hawaii's \$1,500,000 loan is the suggestion which Governor Frear has received from one of the leading trust companies of the nation's financial money center. It is also intimated that the rate of interest will be between four and four

and one-half per cent.

Speaking on the subject yesterday the Governor said: "One of our fiscal agents has written to me in regard to an inquiry made by me some time ago. According to him the money market looks as if we should float our bonds at four and one-half per cent, and poscourse, the money market may im-

prove.

has been set for June 24 and is to ex-tend over until the morning of the twenty-fifth, if the work is not com-

After the meeting had been called of it. to order the report of the special com all of mittee that was appointed to report on the tenement question and which has already been published was read and adopted. President Berndt then spoke of the matter, which was before them, and of its seriousness and left the details to President Mott-Smith of the board of health.

The latter touched on all the powers and money that had been given the thoard by the legislature and said that this is no good to them unless the interest of the citizens, as a whole, is because it is time to condemn any part of the rest of the block over which there est of the citizens, as a whole, is be-hind it all. At the last meeting called by the ciub to deal with this question they had come out so strongly that they had shown the legislature whatthey wanted.

such as was present that night really wanted it they had passed what was necessary. It was a question so big that it had needed other minds to think about it and they had done it. Citizens Needed.

Among the other matters which had ome up before him, he had been trying to find out some way in which this matter of a cleanup day for Honolulu could be put before the people in such a way that it would interest them. Now that he had the assurance of the club that they would take the matter up there was no need for further worry. He had seen the good work they could do and was satisfied that they could rry this through just as easily.

be aroused," he continued, "and each one does his part then the work can be done, but otherwise the object we hope for can not be reached.

than Chamberlain's Colle, Cholera and Diarrhoea Remedy. Ever since the Starthoea Remedy. Ever since the Diarrhoea Remedy. Ever since

important it is that we should wash nor frees even if it is only once a year."?

In the Truck. The president, then touched on the fact that Hawali was in the track of all norts of diseases, which might be introduced here from the fourh Amer-

ican and other ports.

"The idea that the present conditions here had been responsible for the recent outbreaks of disease is a fallacy," he said. "Every disease that has ever broken out is Hawaii has been has ever broken out in Hawaii has been brought here and being in the track as we are there is always a constant menuce. The time has passed when we should all sit back in aming satisfaction and we should go at it with the determination to make a success of it."

One of the points brought out was that of whether or not the Chinese and hendings readings would want to seek Japanese residents would work in with the movement. President Berndt told the meeting that the Japanese and Chinese merchants' associations were quite prepared to stand right in with then

# TO HIGHER COURT

(Continued from Page One.) Mr. Clegg stated that from an Committee of all nuisances, needs for sanitary improvement, unsightly structures, dilapidated feaces, unkempt vacant lots, etc., which it may be impracticable to deal with satisfactorily on Cleanup Day, so that such matters may be taken up later by this body.

V—The executive committee thall have prepared suitable inexpensive badges for the Cleanup Day workers, distinctive lettering to be placed on those for officers, executive committee men and captaing of bands.

fected body of water cholera might be carried by bathers, or anyone using the carried by bathers, or any deposited in other places.

It would be carried by bathers, and deposited in other leads in their clothing.

It would be carried by bathers, and deposited in other leads in their clothing.

It would be carried by bathers, and deposited in other clothing.

ably be very little danger to the bather and great danger to other people?" asked Mr. Milverton.

Mr. Clegg replied that the bacillus of cholera was a very minute organism. There would be several million on the head of a pin. One organism was pro-ductive every twenty minutes and pro-

Experience in Manila. Judge Cooper, referring to a state-ment previously made by Mr. Clegg re-garding his work in the recent cholera outbreak in Manila, when the deaths the foof 117,000 natives were traced to in- land: fection from the waters of the harbor,

asked why was no precaution taken regarding bathing in Manila.

Mr. Clegg stated that the chief reason was that they had too many other things to look after. Attention was given to the greater needs of the city. The witness stated later that it was

Doctor Currie told of the reasons why

Opponents of the civic center site might be caused because it may be necessary to institute condemnation pro ceedings for the Irwin block, or a of it. It is not unlikely, however, all of it could be purchased by private agreement and, in any case, the delay would not be so long as must happen if the Mahuka site is adhered to.

No Object in Delay. It is absolutely certain that the por tion of the civic center block on which the building will stand can be secured without condemnation proceedings so that it will be possible to go right might be a dispute as to price, etc., as the building will not cover the entire

block. Moreover there will be no object in delaying proceedings as to the Irwin site. If there was any dispute it would one that the legislative body had hesitated about doing it, but when they tated about doing it, but when they that both sides would be inclined to such as was present that with the proceedings as variable. sible

In the case of the Mahuka location, on the other hand, one of the principal objects, it is believed, will be to fight for delay. It is not merely a question of value but one also of how to hinder the proceedings.
